

# PRESS RELEASE

Release Date: IMMEDIATELY

## "Gator Releases Bag Designed for Shure BLX or Similar Wireless Systems"

Gator releases its new GM-DUALW microphone bag which offers protection and purpose with a unique design allowing you to carry and use your Shure BLX or similar wireless system without having to remove it from the bag.

This rugged, Nylon padded bag fits one receiver up to 12.1" x 5.5" x 1.6", two (2) wireless microphones, and two (2) body packs. The reinforced, padded interior includes a secure strap to hold the receiver in place while the compartment on the back opens to provide full access to the rear panel of wireless receiver.

Rubber grip feet on the bottom of the bag prevent it from sliding around when in use and helps prolong the life of the bag by reducing wear and tear. There is plenty of room for accessories and power supply with a large external zipper pocket and an additional removable storage pouch in the rear of the bag.

Keep tabs or store important info on your gear by utilizing the clear window on the outside of the bag that perfectly fits an ID or business card. When you are ready to pack up and go zip it up and throw it over your shoulder with the removable, adjustable shoulder strap. Gator's GM-DUALW wireless system bag is the perfect combination of lightweight portability and functionality.

The new GM-DUALW bag is available from your authorized Gator dealer. Check out the bag on [www.gatorcases.com](http://www.gatorcases.com) for more information.
