BODYREZ ACOUSTIC PICKUP ENHANCER

Ultra-Compact Acoustic Guitar Pedal for Acoustic Pickup Enhancement with Studio-Quality Tone and Feedback Suppression

- Ultra-compact acoustic guitar pickup enhancement pedal offers studio-quality acoustic tone and built-in feedback suppression
- Specifically designed to restore your guitar's natural acoustic resonance when using under-saddle pickups to give you a superb studio-quality acoustic guitar tone
- Phase control footswitch mode offers an easy and effective way to kill low-frequency feedback
- Sophisticated filters and subtle compression seamlessly bring back the natural playing feel and acoustic ambiance of your guitar
- Extremely simple one-knob control lets you focus on playing
- Extra-small footprint easily fits on any pedal board
- True bypass allows for optimum clarity and zero high-end loss when the pedal is off
- Footswitch hold-to-mute lets you swap instruments silently
- 3-Year Warranty Program*
- Designed and engineered in Denmark

Refined Resonance

BODYREZ is the new must-have tool for every acoustic player out there. Designed to restore the natural acoustic resonance of your instrument when using under-saddle pickups, BODYREZ gives you a more pristine sound simply with the turn of a single knob.

Getting great acoustic tone couldn't possibly be easier, with harmonic bliss now just a stomp away.

- Studio-Quality Acoustic Guitar Tone
- Built-In Feedback Suppression
- Restores Natural Playing Feel

BODYREZ ACOUSTIC PICKUP ENHANCER

Ultra-Compact Acoustic Guitar Pedal for Acoustic Pickup Enhancement with Studio-Quality Tone and Feedback Suppression

True to Your Timbre

There's nothing more captivating than the natural rich and crisp sound of an acoustic guitar. Sadly, most acoustic pickups take that full 3-dimensional sound and make it flatter and more uninviting than a burned pancake. This is where BODYREZ comes in. With BODYREZ it's like having your own personal pro audio engineer along with you at all times, making sure that you sound your best all while eliminating potential feedback traps. Once you plug this pedal in, you're going to wonder how you ever lived without it!

The Complex Made Simple

Even though BODYREZ emanates simplicity with its one dial design, there are tons of cool things going on underneath the hood. BODYREZ applies a vast amount of pre-configured filters combined with subtle quick compression in order to bring your amplified acoustic tone back to life. All of these factors have been painstakingly measured and meticulously selected to help bring out all that's good about your instrument. So all you have to do is turn it on and start wowing the crowd.

Feelin' Alright

When you play your acoustic guitar at home everything just feels right. The tone, the response, the natural ambiance – it's all there. But on stage and plugged into a PA, it's a whole different story. BODYREZ restores that natural feeling you get playing your guitar acoustically, as opposed to that super sensitive and nervous feel you get when using a piezo system.

You Are Covered

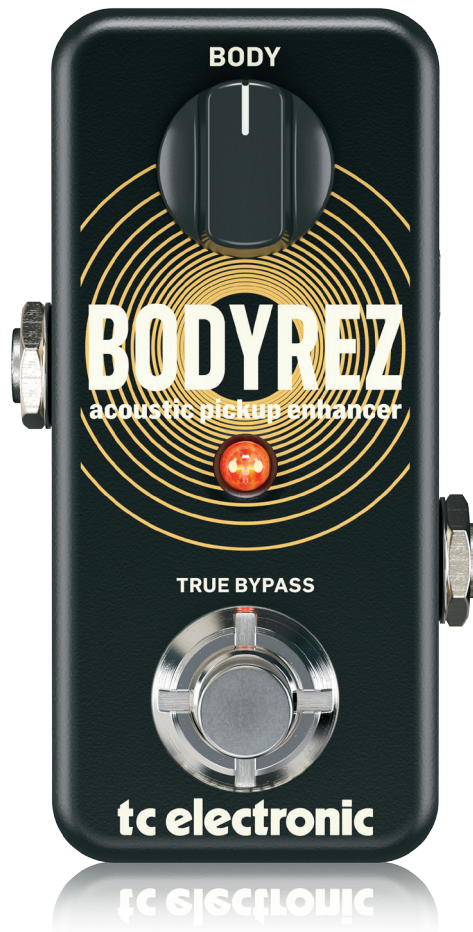

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
