

# CRESCENDO AUTO SWELL

Responsive Crescendo Pedal with  
2-Knob Interface for Haunting  
Guitar Line Manipulation

- Lets you create rolling and powerful volume swells
- Instantly accessible 2-knob interface featuring sensitivity and attack
- Controls attack time to create almost violin-like guitar lines
- True bypass for ultimate signal integrity
- "Built-like-a-tank" metal chassis
- Runs on 9 V battery or the PSU-SB DC power supply (not included)
- 3-Year Warranty Program\*
- Designed and engineered in Denmark

Every once in a while an effect arrives ahead of its own time, and before guitarists can figure out what to do with it, it's no longer available. As a result, and in spite of their high retail price, they become extremely valuable because of their rarity. CRESCENDO AUTO SWELL brings one of those iconic and rare effects back to life, and makes it readily available, affordable and built to withstand a lifetime of abuse.

## A rare bird

Just like the musical term, crescendo means to start at a low volume and then swell to a much louder level, which is similar the sound of a violin being bowed. Now you get those sweeping swells from your guitar, without searching high and low for hard-to-find vintage gear, and we're talkin' about a brand new, in the box CRESCENDO AUTO SWELL pedal that is backed by one of the most generous warranty programs. Try to get that at a garage sale!

Guitar Line Manipulation

## Subtle and simple

Thanks to just 2 knobs (Sensitivity & Attack) and a true bypass switch, CRESCENDO AUTO SWELL is easy to use and functions much like a noise gate, only in reverse. Instead of clamping down on the tail of your signal, CRESCENDO AUTO SWELL mutes the initial attack and then swells up to full volume. Put simply, it removes the pick attack and blooms into a beautiful swelling note.

## Roadworthy

Housed in a sturdy metal enclosure, CRESCENDO AUTO SWELL was built to withstand years of daily abuse. The high-quality analog circuitry and true bypass switch respects your tone and keeps the signal nice and clean. So whether you're creating pedal steel like chord tones, the sound of foghorns cutting through the fog, or the sweet swelling strains of a violin section – CRESCENDO AUTO SWELL was made just for you!

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **Warranty program**.
