## New: Intelligent Mic Gain

Using DITTO MIC LOOPER is exactly like plugging your mic directly into the PA and you only need to set input gain once – at the mixer. No more trial-and-error tinkering to find the optimal balance between input gain on your effects unit and the mixing desk.

## It's this Simple...

- Press LOOP to record. Press again to play the loop. Repeat for endless overdubs. Hold to undo/redo latest overdub.
- Press STOP to stop all loops, press again to restart play from the beginning – or hold it for a quick, noiseless erase.

## ...and this Versatile

As a singer, beatboxer, horn-blower, percussionist or string-player, the power and musical ease of DITTO MIC LOOPER simply cannot be overstated. Even the faintest musical idea can be explored, built up, torn down and just plain enjoyed in private, practice or performance.

## The Magic of Two Switches

The dedicated STOP switch on DITTO MIC LOOPER lets you pause your loop exactly where you want, without having to double-tap to stop and fudge your timing – as with some competing loopers. This means your LOOP button is totally focussed on your looping creation with Record/Play/Overdub functions.

## Pure Looping – Without the Fluff

1. Intelligent Mic Input Gain for Quick and Painless Setup
2. Built In Mic Control, Infinite Overdubs and Loop Storage
3. Intuitive LED Indicator for Modes and Dedicated Loop Switches
4. Quiet Mic Preamp with Phantom Power, Balanced XLR Out, Power & USB for Updates

## Chain FX into Your Loop

You can use DITTO MIC LOOPER with other vocal processors like TC HELICON's Harmony Singer or Mic Mechanic. Add effects into the chain before DITTO MIC LOOPER to alter the sound of your loop and even change sounds between layers. Or, add your effects to the chain after DITTO MIC LOOPER to sonically change your loop at any moment.

## Under the Hood

DITTO MIC LOOPER carries with it the high-fidelity hallmark of the entire DITTO family – 24-bit uncompressed (and uncompromised) audio. Paired with a great-sounding mic preamp and phantom power to boot, you are free to use any of your favorite dynamic and condenser mics.

## More Mic, More Control

You can completely control DITTO MIC LOOPER from your mic – simply plug in a TC HELICON MP-75 microphone or Sennheiser e835 FX (both sold separately). We call it Mic Control™, and it allows you to command both the stage – and the audience!

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **Warranty program**.
