

EL CAMBO OVERDRIVE

Classic Tube Overdrive Pedal with Intuitive 3-Knob Interface for Essential Blues Rock Tones

- Vintage and authentic sounding overdrive pedal
- Shape the scream of your tube drive with the 3-knob interface
- Classic blues rock tones that conjure up the great masters of the genre
- True bypass for ultimate signal integrity
- “Built-like-a-tank” metal chassis
- Runs on 9 V battery or the PSU-SB DC power supply (not included)
- 3-Year Warranty Program*
- Designed and engineered in Denmark

As far as versatile and ubiquitous effects go, an overdrive emulating a pushed tube amp is as good as I gets. EL CAMBO fattens up your tone with a little (or a lot) of extra girth around the waist, providing that highly sought-after midrange “oomph” that cuts through the mix, especially when your band is pushing hard decibels. This particular gritty honk gives your guitar a powerful voice that is ideal for a singing blues solo, and it’s also perfect for a hard rockin’ lead boost over the top of your amp’s already overdriven sound. Crank it up and testify!

A Mountain of Mids

EL CAMBO OVERDRIVE delivers a distinct midrange boost, one that can instantly warm up your tone, even if it’s a bit too jangly to cut through a loud rhythm section. Thanks to its symmetrical clipping overdrive circuit, the harmonic saturation is amazingly fluid and musical sounding.

Boost Into Epic Solo-Mode

With plenty of gain and boost on tap, EL CAMBO can be tailored to work in almost any setting. From adding just a bit of push to your preamp with subtle warmth to your tone, to a screaming overdrive with singing sustain and thickness, EL CAMBO gets you there. Whether the moment calls for blistering Texas-style blues, soulful pop ballads or classic rock riffs – EL CAMBO fits the bill!

Roadworthy

Made from a sturdy metal housing, this all-analog overdrive will last for years and years without losing that warm tube saturation tone. EL CAMBO's top-mounted jacks help save pedal board space and corral your cables, while the true bypass operation keeps your signal nice and clean.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **Warranty program**.
