EYEMASTER METAL DISTORTION

Skull-Pounding Metal Distortion Pedal with 2-Knob Interface for Insane Gain

- Bone-crushing metal distortion pedal
- Highly responsive 2-knob interface
- Roll in huge amounts of gain to take your tone over the top
- True bypass for ultimate signal integrity
- “Built-like-a-tank” metal chassis
- Runs on 9 V battery or PSU-SB DC power supply (not included)
- 3-Year Warranty Program*
- Designed and engineered in Denmark

Kneel Before EYEMASTER!

EYEMASTER METAL DISTORTION brings back the original metal credo of “loud and brutal” with its “simpler-than thou” 2-knob operation. Just set the volume (all the way up, right?) and adjust the gain (anything less than all-the-gain is sacrilege) and start riffing. EYEMASTER was specifically designed to channel pure, Swedish death metal tone, endearingly nicknamed the “Swedish Buzzsaw”. EYEMASTER is NOT some filly, tasteful overdrive; it is not transparent; and does not “sit well in the mix” – it burns an unholy path straight through the mix!

All. The. Gain.

The concept of gain is something we often take for granted, and rarely do we stop to think about what the term actually means. In many ways, gain has been given a bad name; mankind has been tricked into believing such blatant nonsense as “less is more”, and other sophomoric terms like “transparent” or “authentic” are better. EYEMASTER brings back elemental, primordial gain – the kind of raw gain by which empires are either built or shattered!

Perfect EQ

Stop wasting time on EQs. We've already dialed-in the perfect death metal EQ and cut off the knobs. Just turn the remaining knobs all the way up and unleash your inner beast with an authentic death metal sound that is evocative of ancient pagan rituals performed in the depths of the Scandinavian woods. Tones that are dark and menacing – and dripping with acid and edge.

Forged from Unholy Metal

With its sturdy and strong metal frame, EYEMASTER will stand up to an army of black clad metal players and keep asking for more. Dead simple 2-knob operation and top-mounted jacks provide an easy fit on your pedal board, and the true bypass keeps your signal nice and clean. (Hey, you've gotta tune sometime, right?)

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty program](#).
