# HONEY POT FUZZ

Vintage-Flavored Fuzz Pedal with Massive Wall of Tones and Miles of Sustain

- Heavy sounding fuzz pedal with massive wall of tones
- Dial in massive amounts of gain that makes the angels sing
- Enjoy almost endless sustain as heard on classic alternative rock recordings
- True bypass for ultimate signal integrity
- "Built-like-a-tank" metal chassis
- Runs on 9 V battery or PSU-SB DC power supply (not included)
- 3-Year Warranty Program\*
- Designed and engineered in Denmark

HONEY POT FUZZ is an incredible FX pedal that blurs the lines between fuzz and distortion, and brings truckloads of sustain along for the ride – and the tone is fat and nasty with warm, sweet highs! HONEY POT FUZZ broad tonal palette covers everything from The Black Keys and The White Stripes to '90s alternative rock to Dark Side Of The Moon and more, with a beautiful creamy and vibrant sustain.

## Classic Fuzz Tones

HONEY POT FUZZ faithfully delivers the instantly recognizable distortion guitar sound found on iconic rock albums from the '70s onward. There's no doubt you've heard it before: fat buzzing power chords with a life of their own; singing, violin-like lead lines; and tight, rich riffing that holds its own in any mix.

## Sustain for Days

With only 3 knobs to master, HONEY POT FUZZ' massive gain range provides tonal capabilities to extend from the semi-gritty grind of an overdrive pedal, all the way to ultra-thick walls of sticky honeycomb-structured distortion. The Sustain knob lets you dial in the exact amount for those epic solos where you can hang on a bended note for a few bars, or climb a wall of chunky power chords – while you're building to a climactic finish!

## Build Quality

HONEY POT FUZZ' metal chassis is built to last, so whether you're working the club down the street, or promoting your latest release halfway around the world, you can always count on stunning performance. The top-mounted jacks make it ideal for the most compact pedal board, plus the true bypass design respects your tone – even when the pedal is off.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Tribe](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty program](#).
