# HYPERGRAVITY COMPRESSOR

Exceptional Multiband Compression Pedal with Vintage Compressor Mode and Built-In TonePrints\*

- Compact compressor pedal offers exceptional multiband compression plus a sweet vintage compressor mode
- Advanced MD3 multiband dynamics algorithm applies perfectly tailored compression to highs, mids and lows for an ultra-musical result
- Warm vintage mode lets you play with a classic stompbox compressor tone
- TonePrint-enabled to let you beam cool signature tones into your pedal with the free TonePrint App
- Design your own customized compression effects from scratch with free TonePrint Editor for PC, Mac\*, and iPad\*
- True bypass allows for optimum clarity and zero high-end loss when the pedal is off
- Optional buffered bypass mode prevents high frequency loss from long cable runs
- Simple, easy-to-use controls let you focus on playing
- Compact format fits on any pedal board
- High-quality components to give you a true studio-grade compressor in a pedal format

HYPERGRAVITY COMPRESSOR is the missing link that will take your tone from good to great. Featuring no less than three amazing modes, HYPERGRAVITY COMPRESSOR includes a state-of-the-art multiband compressor, a cool vintage compressor, plus endless compression combinations through TonePrint. HYPERGRAVITY COMPRESSOR is the key to getting that much-desired pro tone with even dynamics. Kick it in and be prepared to shine!

- Studio-Quality Multiband Compressor
- Vintage Mode for classic stompbox compression
- TonePrint enabled

- Sturdy die-cast metal case designed for life on the road
- 3-Year Warranty Program\*
- Designed and engineered in Denmark

## Compress Without Compromise

HYPERGRAVITY COMPRESSOR's highly advanced multiband dynamics algorithm is the same MD3 compression algorithm that can be found in our studio production masterpiece, System 6000 which has been the preferred dynamics tool for top producers for over 10 years. Its technologically superior engine applies perfectly tailored compression for your highs, mids and lows, and leaves you with an ultra-transparent and in the end, more musical compression than what can be achieved with standard single-band compressors. This lets you go from subtle airy shimmers, to full-on straightjacket tone-holds and anywhere in between, without ever compromising your original tone.

## Squeeze Into Some Tight Tones

Jump straight into those old-school compression tones of yesteryear with HYPERGRAVITY COMPRESSOR's warm vintage mode. You get all of the squeeze and squash you could ever want, alongside that extra presence associated with those classic stompbox compressors we all know and love. Perfect for percussive country tones, tight funk sounds or sweet Gilmour sustain.

## TonePrint – Customized Compression

With our proprietary TonePrint technology you can finally realize the full potential of your inner compression-geek. The free TonePrint Editor and its wealth of parameters, lets you tailor that fully focused compression tone completely to your liking. But hey, if you'd rather rely on the sonic wisdom of others, then we have a solution for that too. Via the free TonePrint App, you can beam custom-tweaked compression tones made by some of music's finest to the pedal. It's time to unleash those dream tones inside your head!

## True to Tone

You love tone, so do we, and our design philosophy testifies to that. So whatever route you wanna go, we got your back. With optimized headroom, True Bypass or Buffered Bypass switch and Kill-Dry on/off, this pedal guarantees optimal tonal integrity and zero loss of tone. And, no matter if the pedal is on or off your precious dry sound is always passed through the pedal unharmed in all it's pure analog glory due to an Analog-Dry-Through.

## TonePrint

TonePrint means signature effects – and signature effects means truly creative tones. From classic innovators to the guys shaping the future of music, we've asked the coolest artists around to come up with their customized signature version of a TC ELECTRONIC effect – and make them available to you for free!
