# SPARK MINI BOOSTER

Ultra-Compact Booster Pedal with PrimeTime Switching and Fully Analog Design

- Ultra-compact booster pedal with PrimeTime switching and all-analog design kicks your playing into high gear
- Impressive 20 dB of completely clean boost makes your core tone shine through
- Revolutionary PrimeTime footswitch seamlessly toggles between classic on/off or a momentary boost based on how long you hold it down
- High-quality discrete analog circuit purely amplifies your signal without any degrading or alteration
- Level control knob gives you versatility to go for a pristine boost or drive your amps to peak performance
- True bypass allows for optimum clarity and zero high-end loss when the pedal is off
- Extra-small enclosure easily fits on any pedal board
- 3-Year Warranty Program\*
- Designed and engineered in Denmark

## Rooted in Tradition, Aimed at Rebellion

Kick your playing into high gear with SPARK MINI BOOSTER, a stompbox-wonder for the initiated that features a completely clean boost with some serious tone enhancement under the hood once you really start cranking things.

- A whopping 20 dB of boost
- Revolutionary PrimeTime switching
- Discrete Analog Circuit

## Tone to the Bone

With a full 20 dB of boost, SPARK MINI BOOSTER is a great clean booster. But that's not all it does – keep turning that knob and it'll start working its magic driving gear into peak performance! No matter what your style or set-up, this musical miracle will maximize your potential – but let your core tone shine through completely unaltered.

# SPARK MINI BOOSTER

Ultra-Compact Booster Pedal with PrimeTime Switching and Fully Analog Design

## Ready for PrimeTime

PrimeTime is a radical new feature that is exciting guitarists around the globe. Put simply, SPARK MINI BOOSTER instantly understands whether you want the pedal to be on permanently when you hit the footswitch, or just when you hold the footswitch down. Which totally rocks for both 'always-on' and 'emphasizing passages' situations.

## Tonal Magic

By adding a discrete, fully analog circuit, SPARK MINI BOOSTER adds a purely magical sense of life and excitement to your gear and tone. Each part of the circuit is carefully selected, from transistor to capacitor and from resistor to diode. What does that mean? Sweet, pure tone in all of its glory in an unparalleled clarity with zero coloration. Whether you want to make things sing or roar, this circuit ensures to maximize your tone.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **Warranty program**.
